Taken as a child, mutated, and trained in the arcane ways of the witchers, Geralt is a reluctant hero, who nonetheless finds himself all too frequently in the heat of battles that are not his own.. The Witcher: Rise of the White WolfBased on the universe created by best-selling Polish author Andrzej Sapkowski, The Witcher: Rise of the White Wolf puts players in the role of Geralt, a professional monster slayer who exists on the fringes of a complex society troubled by the kind of problems more commonly found on the front pages of newspapers than in a fantasy universe.
