“Since upgrading my laptop to Windows 10, it randomly crashes on startup or when playing games, is anyone else having this problem and if so have you worked out how to fix Windows 10 crashes dump?” Microsoft has released Windows 10 as an improvement to the previous Windows 8.. If after a Windows Update or Upgrade, your Windows 10 computer crashes or freezes after resuming from Sleep, then it's a clear.. I upgraded to Windows 10 and since I cannot successfully boot from hibernate or sleep state, it always crashes and boots up from.. I have opened event viewer but how to check? I cant imagine Microsoft word keeping the computer from waking up, that program isn't very intensive on the machine.. I recently upgraded to Windows 10 but now every time I put my laptop to sleep or hibernate, it bluescreens when i try to wake it up again.. Aug 14, 2015 Windows 10 crashes after sleep/hibernate Using Asus zenbook Ux31LA.. Thanks for the reply Yes, I keep some programs open such as Microsoft Word The power option is set to balanced.. Glancing over Microsoft Community forum posts, many users still experienced the experienced the problems that Windows 10 crashes on startup, Windows 10 crashes on/after sleep, etc. ae05505a44 [film blue terbaik](#)
